

13th WORLD CONGRESS OF THE RSAI

Smart Regions - Opportunities for Sustainable Development in the Digital Era

Virtual Conference
MAY 25-28
2021

THE REGIONAL SCIENCE ASSOCIATION INTERNATIONAL

Special Session (SS47) on: Regional Development in Sub-Saharan Africa

Organizer:

Tomaz Ponce Dentinho, Editor-in- Chief of Regional Science Policy and Practice. E-mail: tomas.lc.dentinho@uac.pt

The aim of [Regional Science Policy & Practice - RSPP](#) is to promote and diffuse the understanding of human interaction in space; based on sound, rigorous and up-to-date methodologies; and focusing on real and urgent issues for peoples and places, that require adequate policy responses.

Sub Saharan Africa has experienced different challenges in this new era that affected many areas of Regional Science: such as poverty, conflicts, exploitation of natural resources, urbanization, migration, just to mention some. Therefore, this special issue will feature research (with sound methods and replicable evidence) that sheds light on the different challenges that Sub Saharan will face in the next decades, with a special focus on regional policies which can lead to solve these issues.

The objective of this issue is to provide a better understanding of human interaction within space in Sub Saharan Africa to address the problems of people and places.

Submission Guidelines: Interested Authors should submit their abstract to the Special Session “Regional Development in Sub-Saharan Africa” of 13th World Congress of Regional Science Association International (<http://regionalscience.org/2021worldcongress/index.html>) to be held at the end of May 2021.

Authors should submit the full papers to the regular review process of the journal until July 30, 2021. Early submissions are encouraged and will be processed immediately. Papers will undergo the normal refereeing process. The papers will be published on the fourth Issue of 2022.
