

2017-IPR-E6-FGIV-8910

**FG IV – Project Officer - Expert for the
Knowledge Centre on Migration and
Demography**

Position for:

**FG IV –
Project Officer**

As the science and knowledge service of the Commission, the mission of DG Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.

The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: <https://ec.europa.eu/jrc/>

The current vacancy is with the Demography, Migration and Governance Unit, of the Space Security and Migration Directorate. This Unit carries out research in support of EU policies on migration and is responsible for the Knowledge Centre on Migration and Demography.

The European Commission Knowledge Centre on Migration and Demography (KCMD) is a Commission's independent body – steered by all the relevant services – tasked to provide solid scientific evidence for the development, implementation and evaluation of migration and demographic policies, not only in the framework of the migration and refugee crisis, but also in managing migration and addressing the demographic decline in the medium to longer term.

The KCMD is there to support and help to anticipate trends, and it serves the objectives of the European Agenda on Migration. The three pillars of the KCMD are: 1) Building the evidence base, conducting analysis and foresight; 2) Exploiting the knowledge base and facilitating uptake by stakeholders; 3) Partnerships and networking to extend the knowledge base. The JRC is responsible for its daily activities.

The successful candidate will contribute to on-going underpinning lines of research in the framework of the work undertaken by the KCMD. This research will concern the use of novel and alternative data sources to fill existing gaps of information relevant for migration and mobility. The successful candidate will be requested to handle, pre-process and analyse large amount of data covering, among others, the following:

- development and testing of a model to predict migration flows and stocks on the basis of international air passengers' data;
- analysis of public perceptions on migration on the basis of data specifically collected from Twitter for the purpose;
- analysis of international mobility and ethnic segregation on the basis of mobile phone data.

The candidates should have completed post-graduate level studies in the field of data science, computer science, statistics or relevant discipline. They need to have either a PhD degree or at least 5 years of relevant working experience after their master's degree and a good publication record.
