COMPETITION**

**18TH ANNUAL COMPETITION: THE CHARLES
M. TIEBOUT PRIZE IN REGIONAL SCIENCE**

The Western Regional Science Association is proud to announce the 18th Annual Competition for the Charles M. Tiebout Prize in Regional Science. The Tiebout Prize is awarded for the best paper submitted by a full-time graduate student enrolled at an accredited academic institution (currently, or during academic year 2002-2003). To be considered, papers should be in the general discipline of regional science-- topics in the fields of regional economics, urban economics, urban/regional planning, geography, and local public finance, are especially encouraged. Papers will be judged by a Reading Committee of former WRSA Presidents, and the decision of the committee (which will be rendered by late November) will be final.

The author of the winning paper must present at the WRSA's 43rd Annual Meeting to be held at the Wailea Marriott, An Outrigger Resort, Maui, Hawaii, during the period of February 25-28, 2004. The winning author will receive \$1,000 to help defray the costs of attending the Meeting. The paper also will be published in the prestigious international quarterly journal *The Annals of Regional Science* (published by Springer-Verlag) following regular review procedures. Authors of all submitted papers judged by the Program Committee to be worthy of presentation will be invited to deliver them in regular sessions of the Meeting. Small travel awards may also be made to authors of papers judged worthy of designation for "Finalist" status in the competition.

Graduate students wishing to submit papers for the competition should send five (5) hard copies and e-mail as an attachment an electronic copy of the paper as a Word or WordPerfect file in draft or final form to:

Deadline for Submission is (hard copies of papers must reach WRSA by) **October 15, 2003**. All submissions must include a cover page giving the paper's title, author's full name, address, phone and fax numbers. Please indicate your Department and University affiliation and the name of your primary faculty supervisor. Papers should be double spaced. Only one submission per author and only singly-authored papers will be considered. Please also note that any paper exceeding 50 pages in length will NOT be considered by the Reading Committee.

This prize is awarded in honor of the outstanding contributions to regional science made by Charles M. Tiebout before his untimely death in 1968. In addition to his scholarly achievements, "Charlie" Tiebout brought wit, irreverence, and goodwill to everything he did and everyone he knew. He was particularly good in advising, counseling, and encouraging graduate students: thus, it is fitting that the WRSA's annual prize bearing his name be awarded to the best graduate student paper in regional science.
