**The purpose and scope of the special session**

The session aims to explore innovative strategies and insights crucial for fostering sustainability and resilience in rural and agricultural contexts within the framework of a globalized world. It seeks to bring together researchers, practitioners, and policymakers to discuss best practices, challenges, and opportunities in achieving long-term viability for rural communities and agricultural systems. Emphasizing the interconnectedness of global dynamics, the session aims to facilitate a comprehensive dialogue on balancing economic development with environmental stewardship and social well-being, fostering a deeper understanding of sustainable practices and resilient approaches in the face of contemporary global challenges.
