

***Special Session (SS15) on:  
Methodological challenges of  
statistics***

**Organizer:**

**Eva Laczka** - Former President of the Hungarian Statistical Association, Former Deputy President of the Hungarian Central Statistical Office. Email: [laczkae@gmail.com](mailto:laczkae@gmail.com)

**The purpose and scope of the special session**

The digital world, the explosion of information, fundamentally changed the environment of Statistics, Statisticians face very new challenges, the changes affect all areas of Statistics, from demography to social and economic statistics and mathematical methods.

The purpose of the section is to present certain outcomes - final or intermediate - of the recent research activities having statistical and possibly regional aspects, nevertheless illustrate the scientific activity carried out at the cooperating Hungarian universities. The four universities are collaborating to be present in the international statistical mainstream and sharing their ideas, newly developed statistical methods and results.
