

MINUTES

RSAI COUNCIL MEETING ATLANTA

12H30-14H30, FRIDAY, 15TH NOVEMBER, 2013, ATLANTA, UNITED STATES OF AMERICA

Jean-Claude Thill welcomed the members of the RSAI Council. The meeting registered the presence of 13 of the 15 members of the RSAI Council.

Jean-Claude Thill asked for one minute of silence in memory of Piet Rietveld, a remarkable regional scientist and a splendid person. The Council kept one minute of silence.

1. Apologies (JCT)

Council members present: Jean-Claude Thill (President, Councilor at large), Andres Rodriguez-Pose (ERSA), Jouke van Dijk (ERSA), Gunther Maier (ERSA), Neil Reid (RSAmericas), Richard Shearmur (RSAmericas), Eduardo Haddad (RSAmericas), Patricio Aroca (PRSCO), Rachel Franklin (Councilor at large), Daniel Czamanski (Councilor at large), Johan Lundberg (Councilor at large), Amit Batabyal (Councilor at large), and Tomaz Dentinho (Executive Director, Councilor at large)

Apologies from Council Members: Jichung Yang (PRSCO) and Paul Dalziel (PRSCO)

Ex-officio members present: Roberta Capello (Editor of PIRS), Mike Carroll (Editor of RSPP), Alessandra Faggian (RSA Editor of PIRS).

Apologies from ex-officio members: David Boyce (Archivist); Rui Luís (Treasurer), Paul Elhorst (ERSA Editor of PIRS), Takatoshi Tabuchi (PRSCO Editor of PIRS), Yoshitsugu Hayashi (PRSCO Editor of PIRS).

Guests: Yoshiro Higano (Immediate-Past-President), Kingsley Haynes (Past-President) and Hiroyuki Shibusawa (PRSCO Executive Director)

M-I. RSAI Council acknowledges the apologies.

Motion M-I was approved unanimously by the councilors.

2. Minutes of previous meeting (JCT)

Jean-Claude Thill asked if there were any corrections to the Minutes of the Palermo Meeting. No corrections were made and motion was made. Daniel Czamanski moved and Jean-Claude Thill seconded the approval of the Minutes of the Palermo Meeting. The councilors unanimously approved the motion.

M-II. RSAI Council approves unanimously the Minutes of the Palermo Meeting (August 2013)

3. Report of the President on the Strategic Planning Meeting (JCT)

Jean-Claude Thill reported on the Strategic Planning Meeting (Mini Retreat) that took place on the 13th of November, from 15H00 till 18H00, involving the members of the Council and the Long Range Planning Committee and some invited members. The questions addressed were:

- What RSAI wants to achieve? Is RSAI in the right direction? Does RSAI aim conferences with a large quantity of participants and/or with contributions with quality.
- How to promote communication with members, students, scientists, practitioners and policy makers?
- How to improve the performance of RSAI? Through the creation of an advisory committee involving the Presidents of the supra-regionals and also representatives of sectorial groups within RSAI?

- How to support an improved role of RSAI journals and books? Through a specific committee?
- How to tackle the challenges of regional science education?
- How to restructure the organization? Through the creation of a South/Latin American Regional Science Association as discussed in the meeting of the Regional Science of Americas? Through the redefinition of the geographic scope of PRSCO?

Jean-Claude Thill said that he will reflect on the discussions that took place and make some concrete proposals to be presented at the next Council meeting.

M-III. The report of the Strategic Planning Meeting was acknowledged by the RSAI Council.

4. Archivist Report (DB)

Tomaz Dentinho told that David Boyce sent a report that was distributed to the members of the Council (Annex 2). He also said that there were issues collecting the information of some webpages because they were protected against “crawling” but the problem was solved by requesting authorization from the active webmasters.

M-IV. The report of the archivist was acknowledged by the RSAI Council.

Jouke Van Dijk raised the issue that it is important to begin to think about someone to support David Boyce as archivist and suggested that Peter Batey – who has recently worked on the archives – could be a good support. Jean-Claude Thill indicated that there should be a motion on the issue. Amit Batabyal suggested that there should be conversation with David Boyce. Rachel Franklin added that the talk should be with David Boyce and Peter Batey.

5. Creation of the Jean Paelinck Award (JCT, KH)

Jean-Claude Thill summarized the situation after the Palermo Council meeting: there was some negative reaction regarding the creation of new awards but since there was no time for full discussion the item was withdrawn from consideration so it can be more fully discussed. Council agreed to amend the agenda so that Kingsley Haynes could present the case on behalf of the LRPC, which support the proposal.

Kingley Haynes said that the LRPC proposes an award with the name of Jean Paelinck with a focus on Spatial Econometrics since he was the founder of the field being also a link between Europe and the United States. He insisted that it would be nice to do approve the establishment of this award sooner rather than later. Jean Paelinck has been part of the intellectual base of our Association for many decades.

Amit Batabyal asked if there is any document on the award. Tomaz Dentinho informed that it was distributed at the Palermo Council Meeting. The ensuing discussion revolved around the issue of whether RSAI or NARSC should manage this prize, whether RSAI needs more prizes, and whether it should be specifically to recognize someone’s contribution in Spatial Econometrics. A consensus emerged that an RSAI Award honoring Jean Paelinck is befitting, that spatial econometrics may not remain at the cutting edge of regional science methods, that an award on spatial econometrics creates a precedent for awards in other significant subsets of regional science. Jean-Claude Thill summarized that there seems to be a consensus on the creation of an award with the name of Jean Paelinck but there is not much support on the idea of limiting it to spatial econometrics. Jean-Claude Thill moved that the Council: - Approves the creation of a Jean Paelinck Award; - The award should go for someone’s sustained contribution to methods of Regional Science. - Approve the revision of the first proposal following the two points above and that the final proposal by email vote as defined in the RSAI by-laws. Daniel Czamanski seconded.

M-V. The Council approved unanimously the creation of a Jean Paelinck Award to recognize the sustained contribution of a regional scientist towards methods in Regional Science. The Council approved also that the original proposal should be revised according to the two points above and approved by email vote.

6. LRPC report (JCT)

Jean-Claude Thill reported that the LRPC discussed planning for the World Congress, on the reorganization of RSAI and on the journal Regional Science Policy and Practice (RSPP).

Regarding RSPP, Jean-Claude Thill said that the plan proposed by Michael Carroll was considered in the light of the recommendation made by the Committee chaired by Andres Rodriguez-Pose and approved by Council in Palermo. What RSAI needs is a long term perspective on the publication portfolio; eventually giving up on targeting practitioners. Where do we stand? We must be aggressive and sharp and not being afraid. It is not a good idea to change the name of the journal. Roberta Capello said that the LRPC also stressed that we should have to focus on the scope of the journal because there is not a string interaction between academics, policy makers and practitioners. We can think of having sections within the journal but we have recommendations to go for an academic journal where policy issues are addressed in a meaningful way. If we want to have the practitioners involved we should have to discuss their roles. Gunther Maier intervened to say that the strategic document seems to be a good one but we need some marketing for good papers. Jean-Claude Thill remarked that we will return to this issue and there is a specific point in the agenda to do so.

Jean-Claude Thill said that, regarding the World Congress, we have a good webpage, we are calling for papers and we are trying to add activities (workshops, special sessions,...) and key note speakers. The target is 500 delegates and we have a contract with a major hotel in Bangkok to host the event. Andres Rodriguez-Pose remarked that we need a lot of contributions from Singapore, Japan, Thailand and Indonesia. Jean-Claude Thill said that there were some attempts to mobilize the Malaysians but there had been no response so far. We need to work on that in concert with PRSCO and also mobilize Chinese scholars. We have awards for young scholars. Neil Reid asked about key note speakers. Jean-Claude replied that there will be a local speaker on Transportation Issues. Neil Reid stressed that it is important to have a strong Chinese delegation. Andres point out the need for the diffusion of the Conference Webpage.

M-VI. The report of the LRPC was acknowledged by the RSAI Council.

7. Plan and Budget for 2014 (TPD) (Annex 3)

Tomaz Ponce Dentinho informed the Council that RSAI experienced an increase in the financial movements from 2011 to 2013 because membership fees, in 2011, and the support for editors, in 2012, shifted from Wiley Blackwell to RSAI. He also reported that Total Assets are expected to grow from 202.627,75 € in 2011 to 239.950,48 € in 2013 and, if the World Congress gets sufficient margin, to more than 300000 € by the end of 2014; a reduction in the editing expenses and a slight increase in membership fees is responsible for that. Tomaz Ponce Dentinho informed the Council that the RSAI Plan for 2014 involves the three main activities: i) the World Congress in Bangkok with predictable revenues of 147850 € and with estimated costs of 84468 €, resulting in an expected positive margin of 63382 €. ii) Publishing Activities (PIRS, RSPP and RSAI Newsletter) with foreseeable revenues of 41400 € and with estimated costs of 57800 €, resulting in a negative margin of (16400 €); and iii) RSAI Secretariat for membership registration and web management that expects to collect 46666 € in membership fees being payments are due to: salaries and accountancy costs (8022 €), plaques and awards (3099 €) and investment in new sections (5000 €); the surplus of 30545 € goes to cover the negative margin of the publication activities and for an expected growth in deposits of 14145 € that will be added with World Congress margin of 63382 €. Finally Tomaz Ponce Dentinho informed that the Plan for 2014 involved the payment of a full salary to Elisabete Martins with the total cost of 20000 Euros per year; 50% to support the secretariat costs of Papers in Regional Science, 25% to support the secretariat costs of Regional Science Policy and Practice; and 25% to support the secretariat costs of the World Congress, webpage management and membership fees.

Jean-Claude Thill point out that there is a lot of work to do and supported the work contract of Elisabete Martins. Daniel Czamanski stressed that he did not know the history of the numbers presented; regarding the Plan he proposed a publication strategy that could include the announcement of new research results for instance in a journal called "Letters in Regional Science". Jean-Claude Thill defended the creation of a Publication Committee. Jouke van Dijk said that Wiley Blackwell runs the two journals of RSAI and the revenue for RSAI has not increase because the contract is not very favorable. Gunther Maier said that RSAI need an Investment Plan. Jean-Claude Thill informed that RSAI is investing in the World Congress and that it is not too late to get things done. Jean-Claude Thill proposed that the Council: - Approves the Plan and the Budget for 2014.

M-VII. The RSAI Council approved unanimously the Plan and the Budget for 2014.

Jean-Claude Thill proposed the creation of a Financial Committee to review the financial documents before being presented to the Council. The names proposed are: Jean-Claude Thill, Daniel Czamanski, Richard Shearmur and Tomaz Ponce Dentinho. Neil Reid seconded the proposal.

M-VIII. The RSAI Council approved unanimously the creation of a Financial Committee composed by Jean-Claude Thill, Daniel Czamanski, Richard Shearmur and Tomaz Ponce Dentinho.

8. RSAI Publications (JCT)

Papers in Regional Science (RC)

Roberta Capello informed the Council that, as announced in Palermo, the editorial team of PIRS is changed after the end to the service provided by Yoshitsugu Hayashi; the team is now reinforced by Michaela Tripl who has a very good scientific curriculum (CV in Annex 4) and is an expert in qualitative analysis, complementing the editorial team in that field. The editorial team is now composed of five members, all of them starting in 2013: Roberta Capello (Politecnico di Milano), Alessandra Faggian (Ohio State University, U.S.A.), Paul Elhorst (University of Groningen, the Netherlands), Takatoshi Tabuchi (University of Tokyo) Michaela Tripl (University of Lund) and Eduardo Haddad, book review editor (University of São Paulo).

Jean-Claude Thill proposed a motion for the Council to accept the nomination proposal of Michaela Tripoli as part of the editorial team of Papers in Regional Science. The motion was seconded by Tomaz Ponce Dentinho.

M-IX RSAI Council approved unanimously the nomination of Michaela Tripl as Associate Editor of Papers in Regional Science

Regional Science Policy and Practice (MC)

Michael Carroll reported on RSPP's Reorientation Strategy (Annex 5) that was distributed to RSAI Council Members. The report presents a three-year strategy to reorient RSPP away from a practitioner audience to one more aligned with regional policy and planning issues. It addresses the issues highlighted by the committee report presented in Palermo in August 2013. Michael Carroll informed that he did not suggest anyone for the new editorial board and proposed that this should reflect the reorientation of the journal proposed in the report.

Gunther Maier asked if RSPP has its contents in Repec. Jean Claude Thill reinforced the point. Michael Carroll said that Wiley Blackwell sells the journal within a package and they are not providing enough effort to promote the journal. Richard Shearmur asked if WB already applied to get an Impact Factor. Michael Carroll informed that Wiley Blackwell just received a negative answer from another journal and they advised against take a risk with RSPP. Richard Shearmur said that we are sailing against the winds. Regarding the Impact Factor of the journal Jean-Claude Thill also said that we need to have a bench mark and a time line to reach that since it takes a long time to get there.

Concerning the new editorial board, it is strong advised that policy researchers from international organizations (OECD, IMF, World Bank, EU, IDB, IADB, etc) be invited to be involved in the new direction taken by the journal. Daniel Czamanski said it is a question of the editorial board but there is a large group of scholars that have been in the domains of public policy but they contribute to journals in other fields, such as Public Administration, Urban Studies, Public Affairs; what is the competitive strategies vis-à-vis those journals; those people do not come to RSAI conferences. It is also stressed that a more pro-active stance be adopted by the the journal editors to recruit a larger pool of submissions.

Yoshiro Higano, from the Long Range Planning Committee, said that we need action, controllable action but more action. Gunther Maier added that the editorial board should give a stronger sense of the direction to follow. Richard Shearmur reinforced that the general guides of the Reorientation Strategy are good but we need more precise measures to achieve the objectives.

Jean-Claude Thill proposed motions to approve the broad lines of the RSPP Reorientation Strategy, while a final document will be submitted for formal approval by Council by email, and the reappointment of Mike Carroll as Editor for a two-year term. Both motions were seconded.

M-X. RSAI Council approves the broad lines of the RSPP Reorientation and requests a final strategic document that reflects the need for more precise performance measures be submitted for final approval by Council by email vote. The motion was approved by email vote with 9 votes in favor and 1 abstention; 5 councilors did not reply to the on-line vote.

M-XI. RSAI Council approves the reappointment of Michael Carroll as Editor of RSPP, while a new slate of Associate Editors must be subjected to RSAI Council approval in Spring 2014. The motion was approved by email vote with 9 votes in favor; 6 councilors did not reply to the on-line vote.

RSAI Newsletter (TPD)

Tomaz Dentinho informed the Council that nobody answered the call for editors but, through the contact with Roberta Capello, Andrea Caragliu, from the Polytechnic of Milan, sent a letter of motivation and his Curriculum Vitae (annex 6). Roberta Capello suggested that Graham Clarke, from the University of Leeds, should continue to provide his support for editing the RSAI Newsletter. Jean-Claude Thill proposed a motion to appoint Andrea Caragliu as editor of the RSAI Newsletter and invite Graham Clarke to continue his close collaboration with the enw editor. Daniel Czamanski seconded.

M-XII RSAI Council appointed unanimously Andrea Caragliu as editor of the RSAI Newsletter and approved to reach out to Graham Clarke to invite him to stay on as co-editor of the newsletter. The motion was approved by email vote with 9 votes in favor; 6 councilors did not reply to the on-line vote.

9. Sections Recognition and Development (JCT)

RSAmericas (JCT)

Jean-Claude Thill reported that he visited Peru before the RSAmericas conference in Arica to gauge interest in creating a section in Peru. Patricio Aroca informed that the Summer Institute of PRSCO will be organized in Ecuador and there are good prospects for the creation of a RSAI Section in Ecuador. Tomaz Ponce Dentinho informed the Council that Eduardo Haddad went to the Congress of Local Development in Cuba where there was a RSAI Plenary Session of 2 hours and 300 delegates; the prospects of having a section in Cuba in 2014 are great; he also informed that the II Congress of the Ibero American Regional Science Network will take place in Belo Horizonte, Brazil, in October 2014.

- **ERSA (JVD)**

Jouke van Dijk reported that the European Regional Science Association recognized, in the European Regional Science Association Committee Meeting of Palermo, in August, the Baltic Section on the terms of RSAI Constitution that allows supra-nationals to recognize new sections within their spatial area.

Jean-Claude Thill proposed a motion to acknowledge the recognition of the Baltic Section and to ask the RSAI Secretariat to interact with ERSAs secretariat and the Baltic Section regarding membership enrolment and the establishment of interaction procedures between RSAI, ERSAs and the Baltic Section. The motion was seconded.

M-XIII RSAI acknowledges and congratulates the creation of the Baltic Section involving the members from Estonia, Latvia and Lithuania. The motion was approved by email vote with 9 votes in favor; 6 councilors did not reply to the on-line vote.

- **PRSCO (JCT)**

Jean-Claude Thill indicated that the creation of a RSAI section in Thailand is proceeding very well in concert with the organization of the World Congress in Bangkok.

10. AOB

None other issue was raised by councilors and the meeting was adjourned.

Date of next meeting (Wednesday, 28th May, 2014, Bangkok, Thailand)

Fifteenth Report to the RSAI Council

Archival of RSAI Websites

Thirty-one websites of the RSAI and its various subdivisions have been archived from 2 to 5 times during the past year by the RSAI Archives at Cornell University Library. These website data will be saved indefinitely. The efforts of webmasters of RSAI sections, supranational organizations and the RSAI itself are gratefully acknowledged. The list of archived websites follows in the order found on the website noted at the end of the list:

Canadian Regional Science Association
Gesellschaft für Regionalforschung
Asociación Española de Ciencia Regional
Associazione Italiana di Scienze Regionali
Asociación Mexicana de Ciencias para el Desarrollo Regional
Australia New Zealand Regional Science Association
Associação Portuguesa para o Desenvolvimento Regional
Association de Science Régionale de Langue Française
Bölge Bilimi Türk Milli Komitesi, Regional Science Association - Turkish Section
Bangladesh Regional Science Association
European Regional Science Association
Asociación Española de Ciencia Regional - AECR Review
Israeli Regional Science Association
Japan Section of the Regional Science Association International
Korean Regional Science Association
Mid-Continent Regional Science Association
Magyar Regionális Tudományi Társaság, Hungarian Regional Science Association
North American Regional Science Council
Regional Science Association - Nordic Section
ΕΛΛΗΝΙΚΟ ΤΜΗΜΑ ΤΗΣ ΕΥΡΩΠΑΪΚΗΣ ΕΤΑΙΡΕΙΑΣ ΠΕΡΙΦΕΡΕΙΑΚΗΣ ΕΠΙΣΤΗΜΗΣ,

Other Related Matters

The following documents were received and deposited in the RSAI Archives at Cornell University Library during the past year:

1. *The Progress and Perspectives of Regional Science in Japan:*
The Golden 50th Anniversary (in English in electronic form)
The History of the Japan Section of the RSAI, in Japanese.

I have also received a copy of the English version of the history of the Japan Section of the RSAI with a request for editorial assistance. So far, I have not found the time to undertake this editorial effort.

2. *50 ans de science régionale francophone* (electronic copy of a book published by Antoine Bailly, Pierre-Henri Derycke and André Torre on the history of the French Language Regional Science Association.

Copies of the cover pages of these two items are attached.

Leon N. Moses, Professor Emeritus, Department of Economics, Northwestern University, died on October 12, 2013. Professor Moses served as President of the Regional Science Association, 1972-73. Professor Moses also served as the local arrangements chair of the 1974 North American Meetings in Chicago.

Lawrence R. Klein, Professor Emeritus, Department of Economics, University of Pennsylvania, died on October 20, 2013 at age 93. Professor Klein supported the establishment of the Department of Regional Science at Penn in 1958, and was helpful to Professor Walter Isard over the years they served together of the faculty of the Economics Department at Penn.

Members of Council should keep in mind that donations of notes and records of participation in RSAI organizational matters are always welcome. Materials may be sent to Division of Rare and Manuscript Collections, Cornell University Library, 2B Carl A. Kroch Library, Ithaca, NY 14853-5301. A copy of the letter of submission should be sent to me at the address shown above. Questions concerning what materials are appropriate for archiving should be addressed to me. In general, all original materials (letters, papers, notes, etc.) pertaining to RSAI business should be archived.

David Boyce, RSAI Archivist

Appendix 3: Plan and Budget for 2014 and Provisional Income Statements and Balance Sheets Plan for 2014

The RSAI Plan for 2014 involves the following main activities:

- World Congress in Bangkok with predictable revenues of 147850 € and with estimated costs of 84468 €, resulting in an expected positive margin of 63382 €.
- Publishing Activities (PIRS, RSPP and RSAI Newsletter) with foreseeable revenues of 41400 € and with estimated costs of 57800 €, resulting in a negative margin of (16400 €).
- RSAI Secretariat for membership registration and web management expects to collect 46666 € in membership fees. Payments are due to salaries and accountancy costs (8022 €), plaques and awards (3099 €) and investment in new sections (5000 €). The margin of 30545 € goes to cover the negative margin of the publication activities and for an expected growth in deposits of 14145 € that will be added with the Congress margin of 63382 €, leading to an expected profit and increase in deposits of 77526 €.

NET PROFIT		77.526,80 €	

Looking into the evolution of RSAI account since the headquarters were transferred to the Azores it is clear that:

- There was an increase in the financial movement from 2011 to 2013 because membership fees in 2011 and the support for editors in 2012 shifted from Wiley Blackwell to RSAI.
- Total assets grew from 202.627,75 € in 2011 to an expectable 239.950,48 € in 2013 and, if the World Congress gets sufficient margin to more than 300000 € by the end of 2014.

Appendix 4: Curriculum Vitae of MICHAELA TRIPPL

Status: August 2013

Home address:

Flygelvägen 101
SE-22 472 Lund, Sweden

Telephone home:

++ 46 7351 41963

Telephone work:

++ 46 (0)46 222 3191

E-mail: michaela.trippl@keg.lu.se

Personal Data

Date of birth: June 18, 1970

Marital status: Unmarried

Nationality: Austrian citizen

Command of foreign languages:

German: Mother tongue

English: Fluent

Swedish, Spanish: Intermediate

Education

Diploma:

Diploma in Economics (1996)

Mag. rer. soc.oec, Vienna University of Economics and Business (Austria), 1996

Title of the thesis: Institutionelle Barrieren für Regionalentwicklung in alten Industriegebieten (Institutional barriers to regional development in old industrial areas).

Doctorate:

Doctorate in Economics (2004) with distinction

Dr. rer. soc. oec., Vienna University of Economics and Business (Austria), 2004

Title of the thesis: Die Transformation regionaler Cluster in alten Industriegebieten (The transformation of clusters in old industrial areas).

Habilitation (venia docendi):

Habilitation in *Economic Geography and Innovation Research*

Privatdozentin, Vienna University of Economics and Business (Austria), 2011

Title of the cumulative habilitation thesis: Regional innovation systems and the geography of knowledge links

Docent (Swedish system):

Docent in Human Geography

Lund University (Sweden), 2012

Employment

Associate Professor (Senior Lecturer), CIRCLE, Lund University, Sweden (August 2013 – present)

Associate Professor (Senior Lecturer), Department of Human Geography, Lund University Sweden (March 2012 – July 2013)

“Habitationsassistentin” (Assistant Professor), Institute for Regional Development and Environment

Vienna University of Economics and Business (WU Vienna) (2008-2012)

Research assistant, Institute for Regional Development and Environment, WU Vienna (2002 – 2008)

Lecturer at the University of Applied Sciences of BFI Vienna (2005-2008)

Tutor at University of Vienna (2004-2005)

Associate, researcher at the Institute for Regional Innovation, Vienna, Austria (1998-2002)

Researcher at ÖAR-Regionalberatung, Vienna, Austria (1997-1998)

Areas of Specialization: Disciplines and Fields

Economic geography, innovation studies. Special focus on: geography of innovation, cross-border regionalisation processes, regional clusters, long-term regional structural change, labour mobility and regional development, spatial patterns and institutional foundations of the knowledge economy, regional innovation policy

Member Editorial Board

Regional Studies, Review of Regional Research (Jahrbuch für Regionalwissenschaft)

Reorientation Strategy

2013-2016

Introduction

This report will present a three year strategy to reorient RSPP away from a practitioner audience to one more aligned with regional policy and planning issues. It serves as a strategic blueprint of the current editors remaining three years in office. It addresses the issues highlighted by the committee report presented in Palermo in August of this year.

The report is organized as follows. The first section provides a brief summary of the recommendations from the committee report offered at the RSAI meeting in Palermo. These are quotations taken directly from the recommendations section and are offered here as guidelines and objectives of the reorganization presented here. The editorial team's strategies and guidelines for rebranding and increasing submissions are presented next. This report finishes with a synopsis of management changes and a timeline with objectives and metrics.

Summary of committee recommendations from Palermo report:

Scope, aim, and audience of RSPP

...the committee wishes to recommend a reorientation of the journal in order to make it a mainstream scholarly journal dealing with academic research covering regional science and policy issues...the committee feels that RSPP should drop any pretense of catering to a wider practitioner community...concentrate on high-end decision-makers and international organization officials and the academic community...

Submissions and indexing

...Increasing the number of submissions of the journal is a must...the committee feels that achieving Thomson ISI Web of knowledge and Scopus indexing is of importance in order to increase visibility of the journal and, possibility, to encourage more and better quality submissions...

Management

...the committee recommends some changes in management, replacing with immediate effect those associate editors who have been less responsive and/or had

a lower workload...RSAI should also devote greater resources to the journal in order to help with managerial and clerical issues...

Rebranding Building General Readership

The editorial team agrees with the need to reorient the journal away from the practitioner community to an academic journal catering to issues related to regional policy and planning issues. Participation from the practitioner community has been limited and the team feels it will be more productive to focus on the academic aspects of the journal. Rebranding a journal is a delicate process and the team will do everything to ensure success. The rebranding will provide an opportunity to increase general awareness of the journal. We propose to do the following to increase general readership and interest in the reoriented journal.

Specific steps

- The Editor-in-Chief will write an editorial in the March 2014 issue redefining the scope and aim of the journal. This will serve as the new beginning of RSPP.
- Include a one page summary of RSPP articles in the registration material at RSAI conferences
- Send journal information to policy related organizations highlighting the rebranded journal. This would include the World Bank, Education Association of University Centers, as well as other policymaking organizations.
- Send key articles to WB to be included in email alerts and general marketing efforts.
- Align special issue releases to coincide with RSAI conferences
- Explore the possibility of having a keynote address at an RSAI conference and then be the lead article in the first paper of the year (WB has open access to the March issue).

We will try this at the World Congress in Bangkok. Jean-Claude has invited Henry Yeung to an organized session of RSPP. The editorial team will coordinate the solicitation of companion papers and arrange the marketing campaign with WB. Henry prefers this option to a regular special issue.

- Develop the RSPP website that is hosted by WB. This will be separate from the existing RSPP web portal. WB offers this service to its journals without charge. It is generally a less formal site that includes links to articles, discussions, reading lists etc. This will be designed to appeal to the policymaking community as well as the academic community.
- Develop a recommended reading list for international level (World Bank etc.) policymakers. The list would include recent books or articles of prominent regional scientists. It would be hosted on the WB website. It could also be emailed separately to potential policy organizations and included on RSAI website.

- Develop a best paper prize similar to the Martin Beckmann Prize offered to PIRS authors.
- Develop special sessions at RSAI events that feature RSPP. This is designed to get the journal's name into the programs at the RSAI events. The example listed below will be introduced at the ANZRSAI meetings in December. We plan to replicate the session for the World Congress in Bangkok, ERSA in St. Petersburg, and NARSC in Washington.

Roundtable Session

Why Regional Science is Relevant to Policymakers

A four person panel where each speaker is given 15 minutes to articulate why regional science is useful to policymakers. Comments will be summarized and added to the non-refereed section of Regional Science Policy and Practice.

Session Structure

Overview- Chair of the Session Michael C. Carroll will give a 5 minute overview.

- 1) Theoretical treatment of the question by a regional scientist. This lays the philosophical foundation of engagement efforts. (Neil Reid)
- 2) A presentation made by a university administrator (preferably of the host university) highlighting the extent to which they are or are not engaged with the local community, why they decided to be more or less engaged, and an outline the collaborative projects they had with the local community. (Paul Dalziel)
- 3) Presentation made by a regional scientist of a case study that highlights the benefits of a collaborative project between academia and a policymaker/practitioner. What were the benefits to the academic? This gets at the benefits of the collaboration from the academics point of view. (Terry Clower)
- 4) Presentation made by a policymaker/practitioner of a case study that highlights the benefits of a collaborative project between the policymaker/practitioner. What were the benefits to the policymaker/practitioner? This gets at the benefits of the collaboration from the policymaker/practitioner from point of view. (James Rowe)

Discussion

Citation/submission strategy

It is imperative that we get an ISI impact factor and that requires citations. Currently it is difficult to find RSPP because it is not listed on any of the standard search engines (Google Scholar the exception). WB was reluctant to apply for an impact factor because of low citation rates. The editorial team will work with WB to explore all indexing options and coordinate a submission to ISI by June of 2014.

The increased attention given to RSPP's rebranding efforts will help increase submissions and citations.

Specific actions

- Subdivide the TOC of the journal to ensure the citing agencies only include relevant content. We will carve out specific sections. We will clearly delineate citable articles from reviews, editorials, and research notes.
- Develop an email strategy to RSAI membership highlighting significant papers in RSPP of the past 24 months. This will be a rolling 24 month window.
- Review the languages that RSPP abstracts are published. Send abstracted TOC to appropriate regional sections.
- Decrease time to publication timeline (see management section below). Attempt to get first response back to authors in 45 to 60 days.
- Remind council to cite RSPP in their work where appropriate
- Commission a comprehensive review article of policymaking history in regional science
- Evaluate the article to volume ratio to determine optimum

Management

We have taken the committee's recommendation to adjust the current editorial staff. Additional changes will be made as we move forward. It was thought it best to not advance replacement editors names at this time. After Council approves the three year extension of the current editors we will evaluate and forward names to council to be approved via email prior to the World Congress in May.

Editorial staff currently includes the following:

- Michael Carroll, EIC
- Neil Reid, Americas
- Juan R. Cuadrado-Roura, Europe
- John Madden, Asia Pacific
- James Rowe, Book Reviews

EIC expectations of Regional Editors:

The following has been circulated to the regional editors as performance guidelines.

- Solicit a minimum of three manuscripts per year
- Time to first decision to be completed in 45 days
 - Timeline:
 - EIC assigns paper to regional editor within 5 days of author's submission
 - Referee reports due in 21-28 days
 - Regional editors to return full decision to EIC within 5 days of receiving last referee report
 - EIC will submit final decision within 5 days of receiving regional editor recommendation
 - Regional Editors to evaluate referees in scholar one system when recommendation is sent to EIC. This is necessary to track the referees and keep the best referees engaged in the RSPP journal activity.

We will reorganize the editorial board as well. The regional editors are submitting five names each and we will discuss the list and have final names in January 2014.

Administrative Support

Administrative support will be provided by Elisabete Martins. She will provide the same administrative support for RSPP that she does for PIRS. She will complete the administrative checklist in manuscript central and forward papers to the EIC. She will also track delinquent referees and ensure reports will be delivered in a timely fashion.

Milestones, Timelines, and Metrics

Nov 2013 – Nov 2014

- Editorial board changes
- Integrate Elisabete Martins into daily RSPP operations (January 2014)
- Editorial to explain rebranding in the March 2014 issue of RSPP
- First keynote to be delivered as first article (Henry Yeung) in May
- Apply for ISI indexing June 2014
- Launch the WB website
 - Targets:
 - Increase downloads by 7,500
 - Increase citations from 2.77 to 3.5 per paper

Nov 2014- Nov2015

- Publish the “first paper in first issue” feature (Henry Yeung) in March 2015
- RSPP themed session at ERSA and NARSC
- Award first Best Paper award (ERSA or NARSC Conference)
 - Targets
 - Increase citations to 4.5 per paper
 - Increase downloads to 15,000
 - ISI impact factor of 1.0

Nov 2015- Nov2016

- RSPP themed session at ERSA and NARSC
- Best paper award for 2016
- Begin transition to new editorial team (June 2016)
 - Targets
 - Increase downloads to 20,000
 - Increase citations to 5.5 per paper
 - Increase ISI impact factor to 1.5

Appendix 6: Motivation Letter and Curriculum Vitae of Andrea Caragliu

Motivation Letter

Milan, Oct. 16 2013

To the attention of Prof. Tomaz Ponce Dentinho

Executive Director

Regional Science Association International

Dear Tomaz,

I am writing you to submit my candidature as Editor of the RSAI Newsletter.

I have been member of the Italian Regional Science Association for almost eight years, and took part to all the conferences organized by the Italian Section. I also took part to most conferences organized by the European Regional Science Association, and, finally, participated to last year's Timisoara Congress.

My participation to the scientific community is represented by a continuous stream of publications dealing with various regional and urban topics, mostly revolving around the role of non-geographical proximity in regional innovation processes, and on the determinants of urban performance.

As my career proceeds, I would be pleased to contribute more actively to the life of the scientific community. I believe the position of editorship of the RSAI Newsletter would very much fit what I can offer RSAI. My curiosity would naturally feed interesting topics to be covered; my interpersonal/social skills would complement with a good capability to connect in such a vast and complex network of scientists located far way. Finally, the attitude to work under pressure would help me in meeting the newsletter deadlines, so that the process of production works out as smoothly as possible.

In order to offer the most complete picture of my candidature, I am attaching a detailed and up-to-date CV; however, please do not hesitate to contact me for any further questions.

I thank you in advance for your attention, and I look forward to hearing back from the Association.

Best regards,

Andrea Caragliu
Assistant Professor, Regional and Urban Economics
Politecnico di Milano
ABC - Architecture, Built Environment and Construction Engineering
Piazza Leonardo da Vinci 32
20133 Milan (MI)

Citizenship Italian

Date of birth May 22,1978

Sex Male

Professional sector Academic researcher

Professional experience

Dates July 1,2013 →

Job Assistant Professor, Regional and Urban Economics

Institution and address Politecnico di Milano
ABC Department
Piazza Leonardo da Vinci 32, 20133 Milan (MI) (Italy)

Industry Higher education

Dates January 1,2010 –June 30, 2013

Job Post-Doc fellow, Research Unit in Regional and Urban Economics

Institution and address Politecnico di Milano
Piazza Leonardo 32, 20133 Milan (MI) (Italy)

Industry Higher education

Dates September 29, 2009 – November 29, 2009; February 2, 2008 – July 5,2008

Job Visiting student

Activities Visiting scholar, Spatial Economics Department

- Ph.D. in Economics: Second year courses (Regional and Urban Economics, Economics of Urban Transportation)
- Independent research

Institution and address Vrije Universiteit Amsterdam
De Boelelaan 1105, 1081 HV Amsterdam (Netherlands)

Industry Higher education

Dates April 5, 2004 – December 31, 2006

Job Economic consultant

Activities Analysis of the redistributive effects of introducing new economic indicators in the income evaluation process and assessing their impact on the municipality's costs' structure.

Institution and address Municipality of Alessandria
Piazza della Libertà 1, 15121 Alessandria (AL) (Italy)

Industry Public administration and defense

Dates July 11, 2001 – October 10,2001

Job Internship

Activities Drawing up of country papers addressed to inform local consultants and allocate unilateral and multilateral donors' funds, by executing data analysis and market research.

Institution and address INTERNATIONAL TRADE CENTER (ITC)
54-56 rue de Montbrillant, 1211 Geneva (Switzerland)

Industry International organization

Education

Dates Jauary 1, 2007 – February 25, 2010

Degree earned Ph.D. in Management, Economics and Industrial Engineering

Principal subjects/occupational skills covered Advanced econometrics, regional economics, industrial organization.
Full Ph.D. scholarship (Scuola Interpolitecnica).
Title of the Final Dissertation: "Innovation, territorial capital and regional

growth”

The dissertation has been awarded the Merit Prize of the Italian Regional Science Association (runner-up for the *Giorgio Leonardi* Award) and the Merit Prize of the Committee of the Regions of the European Union.

8. "Smart cities in Europe", Free University of Amsterdam Research Memorandum 2009-48 (with Chiara Del Bo

and Peter Nijkamp).

9. "The impact of regional absorptive capacity on spatial knowledge spillovers", *Tinbergen Institute Discussion Papers 08-119/3* (with Peter Nijkamp).

Conference proceedings

1. "Smart cities in Europe", *Proceedings of the 3rd Central European Conference in Regional Science*, pp. 45-59 (joint with Chiara Del Bo and Peter Nijkamp) (invited article).

OTHER PROFESSIONAL ACTIVITIES

Member of the Italian Association of Regional Science (AISRe), European Regional Science Association (ERSA) and American Economic Association (AEA).

Referee for *Applied Economics, Applied Spatial Analysis and Policy, Energy Policy, Environment, Development and Sustainability, European Planning Studies, Growth and Change, International Journal of Foresight and Innovation Policy, International Journal of Sustainable Development, International Regional Science Review, Journal of Urban Technology, Natural Hazards and Earth System Sciences, Papers in Regional Science, Regional Studies, Scienze Regionali- The Italian Journal of Regional Science, Socio-Economic Planning Sciences, Studies in Regional Science, Technological Forecasting and Social Change, The Annals of Regional Science*, and *Urban Studies*.

Refereeing activity for research institutions: *Austrian Science Fund*.

Book proposals evaluations: *Routledge*.

Guest editor (with Camilla Lenzi) for the special issue "Territorial patterns of innovation: evidence from successful European case studies", *Regional Science Policy and Practice*, 5 (4): November 2013.

Teaching

2013-Today

"Valutazione economica delle trasformazioni urbane" (Economic evaluation of urban transformations). Course taught in the Master of Science degree in Building Management (taught in Italian).

2011-2013

"Urban economics", undergraduate course in the Bachelor's Degree in Architecture and Planning (taught in English)

September 2007 –Today

"Investment Appraisal", module taught at the Master Programmes MIT (Master in Open Innovation and Knowledge Transfer) and Fratelli Pesenti, Politecnico di Milano (taught in English)

September 2005-Today

TA for the following courses:

Urban Economics 1;

Urban Economics 2;

Economic assessments of urban transformations and policies;

European urban economics and policies;

Territorial economic analysis.

Applied research

International research activity

Member of the research team on FP7 project "GRINCOH (Growth – Innovation – Competitiveness: Fostering Cohesion in Central and Eastern Europe)". *Research Unit Coordinator*.

Member of the research team on ESPON project 3.2 "Scenarios on the territorial future of Europe".

Member of the research team on ESPON project 4.1.3 Feasibility study on monitoring territorial development based on ESPON key indicators". *Research Unit coordinator*.

Member of the research team on "Knowledge economy, economic transformations and ICT in the EU25+: regional dynamics in the deployment phase", The economic and social research institute, Dublin. *Research Unit coordinator*.

Member of the research team on ESPON Applied Research KIT "Knowledge, Innovation, Territory".

Member of the research team on ESPON Targeted Analysis POLYCE "Metropolisation and Polycentric Development in Central Europe". *Research Unit coordinator*.

Member of the research team on "Smart Cities", Interreg IVB North Sea Region Programme, coordinated by Napier University, Edinburgh (UK). *Research Unit coordinator*.

Member of the research team on ESPON Applied Research ET2050 "Territorial Scenarios and Visions for Europe".

Research activity with Italian entities

Italian National Research Council (CNR) fellowship for young researchers, Research program on "Territorial identity as a factor of integration". Title of the winning project : "Competitiveness and regional disparities in the EU-27".

Member of the research team on "Human capital and professional competencies in the province of Trento". *Research Unit coordinator*.

Member of the research team on "Macroeconomic territorial scenarios". Report on the role and relative positioning of Lombardy in Italy and Europe in the next 20 years, for the ADAI-Federmanager in Varese.

Member of the research team on "Il Capitale Territoriale: un modello econometrico di competitività delle province italiane", *Bando PRIN 2008*, Politecnico di Milano Research Unit (Project leader). Scientific coordinator: Roberto Camagni.

Other academic activities/ awards

December 2010

Merit prize of the Committee of the Regions of the European Union for the doctoral thesis competition "Local and regional authorities in the European Union".

June 2010

Diploma of honor (runner-up) in the Giorgio Leonardi Prize for Best Doctoral Dissertation in the academic year 2009-2010 (Italian Association of Regional Science - AISRe).

December 2008

ISAE (Rome)

AISRe Summer School in Spatial Econometrics.

July 2007
Pecs University (HU)
DIMETIC Summer School in Geography of Innovation.
July 2006
Groningen University (NL)
19th ERSА Advanced Summer School in Regional Science
GIS and Spatial Econometrics
December 2004
Graduate Record Examination (GRE)
Quantitative 780/800
Analytical 4.5/6
Verbal 580/800
