MUS

Master of Science in **Urban Strategies**

MUS is a one-year, interdisciplinary Master's degree program offered by the Department of Urban and Regional Planning (CUURP), Chulalongkorn University in Bangkok. We welcome students from around the world with any academic and professional background who are interested in urban issues and are searching for potential solutions. Our program combines interactive lectures and studio-based classrooms where students are encouraged to share, demonstrate, and compare concepts and ideas using real cases in Thailand and beyond.

Join MUS in August 2019
